PROFESSIONAL SUMMARY

Computer Science undergraduate and full-stack developer with hands-on MERN stack experience building responsive, production-style web applications. Delivered a live frontend project during a professional internship and shipped three independent full-stack applications covering authentication, REST API design, and modern UI engineering. Strong fundamentals in data structures, OOP, and DBMS, with a track record of fast learning across new frameworks and tools.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Python

Frontend: React.js, React Router, Redux/Context patterns, HTML5, CSS3, Bootstrap, Tailwind CSS, shadcn/ui, Radix UI

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, RESTful API Design, bcrypt.js (Auth)

Tools & Platforms: Git, GitHub, Vite, Postman, Microsoft Excel, VS Code

Core CS Foundations: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks

EXPERIENCE

Frontend Developer | Technomatz

May 2025 – Jun 2025 | Remote

- Built responsive, cross-browser web application interfaces using HTML, CSS, JavaScript, and React.js, translating design mockups into functional UI.
- Developed reusable React components and integrated REST APIs, improving consistency and reducing duplicate code across the frontend codebase.
- Collaborated with designers and backend engineers in an agile workflow — participated in code reviews and resolved bugs to maintain application quality and release readiness.

PROJECTS

BookStore — Full-Stack MERN Web Application — React, Node.js, Express.js, MongoDB, Mongoose

- Engineered a full-stack bookstore platform on the MERN stack with a Vite-powered frontend, covering book catalog management and user accounts end-to-end.
- Designed and implemented RESTful APIs for book management and user authentication, securing credentials with bcrypt.js password hashing.

React Video Player — Custom Streaming Video UI — React 19, Vite, Video.js, Tailwind CSS, Radix UI

- Built a custom video player supporting adaptive quality switching, chapters, subtitles, and variable playback speed using Video.js.
- Designed a responsive, accessible UI with shadcn/ui and Radix UI primitives styled in Tailwind CSS v4, with ImageKit integration for optimized media delivery.

React E-Card — E-Commerce Shopping Cart Application — React, React Router DOM, Bootstrap

- Developed a React-based e-commerce app with product browsing, cart management, and client-side routing via React Router DOM.
- Implemented real-time toast notifications and a responsive Bootstrap UI to improve usability and user feedback during checkout flows.

EDUCATION

VIT Bhopal University — B.Tech, Computer Science Engineering

2023 – 2027 (Ongoing)

CGPA: 7.81 | Coursework: Data Structures, Object-Oriented Programming, DBMS, Computer Networks

CERTIFICATIONS

- HackerRank — Python (Intermediate)
- Coursera — The Bits and Bytes of Computer Networking
- Google — IT Support Professional Certificate
- NPTEL — Marketing Analytics

ADDITIONAL INFORMATION

- Core Team Member (Content), MUN Club, VIT Bhopal (2023 – 2025)
- Additional Skills: Microsoft Excel, Canva, Video Editing | Languages Known: English, Hindi
